<p><b>The Right Choice</b> The modern forest products industry is meeting the needs of people around the world while taking care of forest ecosystems. It provides lumber, panels, engineered-wood products, treated-wood products, paper and thousands of by-products. It uses the highest technology to meet these needs while protecting fish, wildlife, soil, air and water. <i>12 Minutes.</i></p>			
<p><b>A Forest Vision</b> With a clear vision of the future and sound principles to guide us, our choices get a lot easier. When we combine our vision with action, we can change the world. We can help to build a sustainable society, and we can all make a difference.</p>			
<p><b>Two Sides of Fire</b> Fire is a paradox: good if it is under control, and usually bad if it is wild and out of control. Now we're beginning to realize that we need to reintroduce fire to many ecosystems. It's often an essential management tool needed to maintain stands of fire dependent species in a healthy condition. <i>15 Minutes.</i></p>			
<p><b>The Miracle Resource</b> A high-energy video that looks at meeting the needs of an increasing world population. One resource stands out as being renewable, reusable, recyclable, biodegradable, energy efficient, non-toxic, and, last but not least, beautiful. <i>14 minutes.</i></p>			
<p><b>The Dynamic Forest</b> A video with exciting sights and sounds explaining how forests work in space and time. This tape helps show how forests constantly change through disturbance and renewal. <i>15 minutes.</i></p>			
<p><b>Circle of Life</b> A documentary addressing the consumption and production of natural resources. <i>28 minutes.</i></p>		Available in VHS format only.
